Title 63. Public Health and Safety

Chapter 1 - Oklahoma Public Health Code

Article Article 9 - Water and Sewage

Section 1-915 - Bottled Water - Plants - Sale or Distribution - Permits Required

Cite as: O.S. §. __ __

Any person desiring to operate a bottled water plant, or to sell or distribute bottled water, in Oklahoma shall make application to the State **Commissioner of Health** for a permit, and obtain a valid permit prior to the operation of the bottled water plant or the distribution and sale of bottled water. Application for such permit shall be on a form supplied by the Commissioner and shall contain such information as the Commissioner deems necessary to his determination that the operation of the bottled water plant or sale of bottled water will in no manner be injurious or hazardous to the health or safety of the people of the state. Each application for a permit and permit renewal shall be accompanied by the proper fee in the amount specified in the following section. The fee paid and permit issued shall be for the particular bottled water plant to be operated and shall not be transferred to another person or location.

Historical Data

Laws 1963, SB 26, c. 325, art. 9, § 915.

📄 Section 1-917 - Standards for Bottled Water Plants

Cite as: O.S. §. __ __

All bottled water plants shall comply with the following standards of sanitation and safety:

- (1) The source of water supply shall be structurally protected to prevent contamination and shall provide such treatment as necessary to insure the water to be bacteriologically and chemically safe for drinking purposes.
- (2) The bottled water plant shall be maintained in a clean and sanitary condition and shall be in good repair and of such construction that will facilitate maintenance in a sanitary condition. Rooms used for bottling and bottle washing shall be well lighted and adequately ventilated. All necessary precautions shall be taken to protect against the entrance of rodents and insects.
- (3) All bottles and containers shall be thoroughly cleaned and given approved bactericidal treatment prior to filling. Facilities and methods of filling bottles or containers shall be such as to minimize the possibility of contamination.
- (4) Adequate and convenient handwashing and toilet facilities shall be provided and maintained in a sanitary condition.
- (5) All bottles or containers shall be plainly labeled as to contents and shall show the name and address of the bottled water plant. No medicinal claims or misleading information shall be permitted on the label.
